<b>NANO TACK WHITE PP</b>	OD57-NTACKW-PP	200	250	-	50x70	OS T U L SC

### IMPORTANT NOTICE:

- The extraction of the sheet from the ream must happen in presence of an ionised airflow, which allows the sheet to soar before being fed into the printing station.
- The total thickness shown in the chart includes the layer, the glue and the liner (if present).

Printability:

OS Offset

T Toner

U UV soft inks

L Latex

SC Screen
