PHASE-2

COVID-19 EMERGENCY

Guandong
theSpecialitieSpecialist

Choose us,
HELP THE OTHERS.

Guandong Italia is the specialitie specialist
also in Covid-19 times.

The Guandong team made this selection of **financial products,
applications and solutions** in record time.

The products in this collection participate
in the production of solutions to counter
the spread of Covid-19 and which **benefit from tax breaks.**
Check details and methods in your Country.

Our Customer Care and our Area Managers are happy
to give you more information and support your every request:
we stay distant, but by your side!

It's time to restart together.

Daniele Faoro, Team Principal & CEO

**Products with this symbol are "Made in Italy" and
developed by the R&D department of Guandong Italia**

EXAMPLES OF USE

ANTIBACTERIAL FOR HANDS

FISCAL BONUS

PRIMAGEL PLUS

Transparent, dermatologically tested hygienizing gel. This is a Medical and Surgical Product for instant hand hygiene; its bactericidal action ensures safe hygienization from viruses and bacteria that often can easily be transmitted through contact with people and all types of objects. Its effectiveness has long been confirmed by numerous certifications: DISINFECTING Activity EN 1650 **BACTERICIDE** Activity EN 1500 **VIRUCIDE** Activity EN 14476 Activity against HIV and SARS **Coronavirus** - San Raffaele Hospital tests HYGIENIC HANDRUB Approval EN 1499 SURGICAL HAND DISINFECTION Approval EN-12791, that makes Primagel Plus proper to be used in operating rooms as per OMS guidelines. Declared as «non-irritating to the skin», after performing «Open Patch Test» skin irritation test accomplished by certified labs. Stability tests ensure that, after 36 months, no appreciable changes are detected in the product's standard physical and chemical properties.

Unit of sales: 12 pcs per box

ANTIBACTERIAL
AND CLEANING PRODUCTS

ANTIBACTERIAL PROTECTIVE WITH SILICON

FISCAL BONUS

Protective for all surfaces based on pure silicon Si14: built on the specific basis of monomeric silicon with highly crosslinked polymers.

When Permanon is applied on a hard and smooth surface, the microscopic silicon plates stick inside the nano-pores of the surface creating a protective barrier where even bacteria cannot enter and develop.

Permanon is a water based surface protection solution that is non-flammable, non-toxic, solvent-free and biodegradable.

- Extremely economical: pour 30 or 50ml of pure product in 1 litre of water, with the solution obtained you can protect 30 square meters of surface
- No waiting time, filming takes place instantly
- Is a natural anti-bacterical and anti-aging on surfaces
- Reduces the washing time in the next cleaning operations

SILVERLINE RTU ready to use
6 months protection

By applying pure Silverline RTU as it is, the Si14 contained in the product instantly creates a protective film on the surface. It will be sufficient to rinse or dry the surface to find the hydro-protected surface. The film has antistatic properties and facilitates the next removal of dirt. Film Forming occurs by electrostatic and non-chemical effect.

Unit of sales: 1 pc
DIMENSIONS: 500ml
Made in GERMANY
CODE: GD-SILVERLINERTU-8073-50

SILVERLINE PSI
6 months protection

Permanon Silverline PSI has to be diluted. The optimal dilution (in water), for a first treatment is 3-5%.

Unit of sales: 1 pc
DIMENSIONS: 500ml
Made in GERMANY
CODE: GD-SILVERLINE-7991-50

Use: 20ml + 1 liter of water

GLASS RTU ready to use
1 week protection

Ready-to-use Permanon Glass cleans glass and surfaces by releasing a special silicon-based protective product that lasts for a week. A single product for cleaning and rinsing protection of glass and furniture. We reccomend to use Silverline as first for the best result and then Glass for maintenance. We guarantee the clean surface with Glass for 1 week, if you have to go over it again (e.g. for handprints) use only a clean microfibre cloth moistened with water and the result will be better than cleaning it with a chemical product.

Unit of sales: 1 pc
DIMENSIONS: 500ml
Made in GERMANY
