GREEN PRODUCTS

Welcome to the MM21 Collection.

Get inspired!

Quality, Vision, Sustainability, Collaboration & Inspiration. Today, more than ever, we're able to combine all the **values** that feed our daily **passion** and this is something we wish to share with you.

Future is an Attitude: **we see beyond** what is in front of us.

In the MM21 Collection you will find products, which we refer to as '**solutions**'.

Guandong Italia has gained new certification and implemented a sustainability programme, as we consider this part of **innovation and progress**. Within our new collection, you can discover **ideas** borne from our beliefs in **Potential**. You can benefit from upgraded sales conditions, which we prefer to call **financial solutions**. There is also the possibility to customise our products, tailored to your needs, with the help of our newly established **G5 Factory**.

Guandong is more than just a print media supplier; we are **#theSpecialitieSpecialist**

IMPORTANT NOTICE:

- The picking of the sheet from the ream must happen in the presence of specific separators and of multiple ionised airflows which allow the sheet to be detached and then fed into the subsequent printing stations with ease. The resulting ionised air cushion generates an anti-static field able to neutralise static charges on synthetic sheets, simplifying both the printing and the stacking phase.
- The total thickness shown in the chart includes the layer, the glue and the liner (if present).
- All products are also available in pallet packaging.
