

Our flagship, a... magnetic attraction! Combining the Magnetic and Ferro systems allows you to change the appearance of any room or surface in the blink of an eye. Choose the combination that's right for you and have fun creating.

Same location, three communications

SPECIALIST ADVICE CORNER

1. We recommend carefully cleaning the surface of the wall or panel to ensure the best performance of the self-adhesive.
2. The surface of the wall or panel must be absolutely dry.
3. We recommend using a hot air gun to soften the compound, revive the glue and increase the overall adhesion of the film to the chosen surface.

Digital Corner

How to do it!
